

**Mountain Bike Trails are designed, built & maintained by volunteers of the RAMBO chapter of SORBA - Southern Off-Road Bicycle Association (UPDATE June '06):**

-All trails are "Day directional" except the "Troll Trail" and Greenway connector (aka: the sewer road).

-Base loop is a 1.3 mile beginner loop designated by signs with green circles.

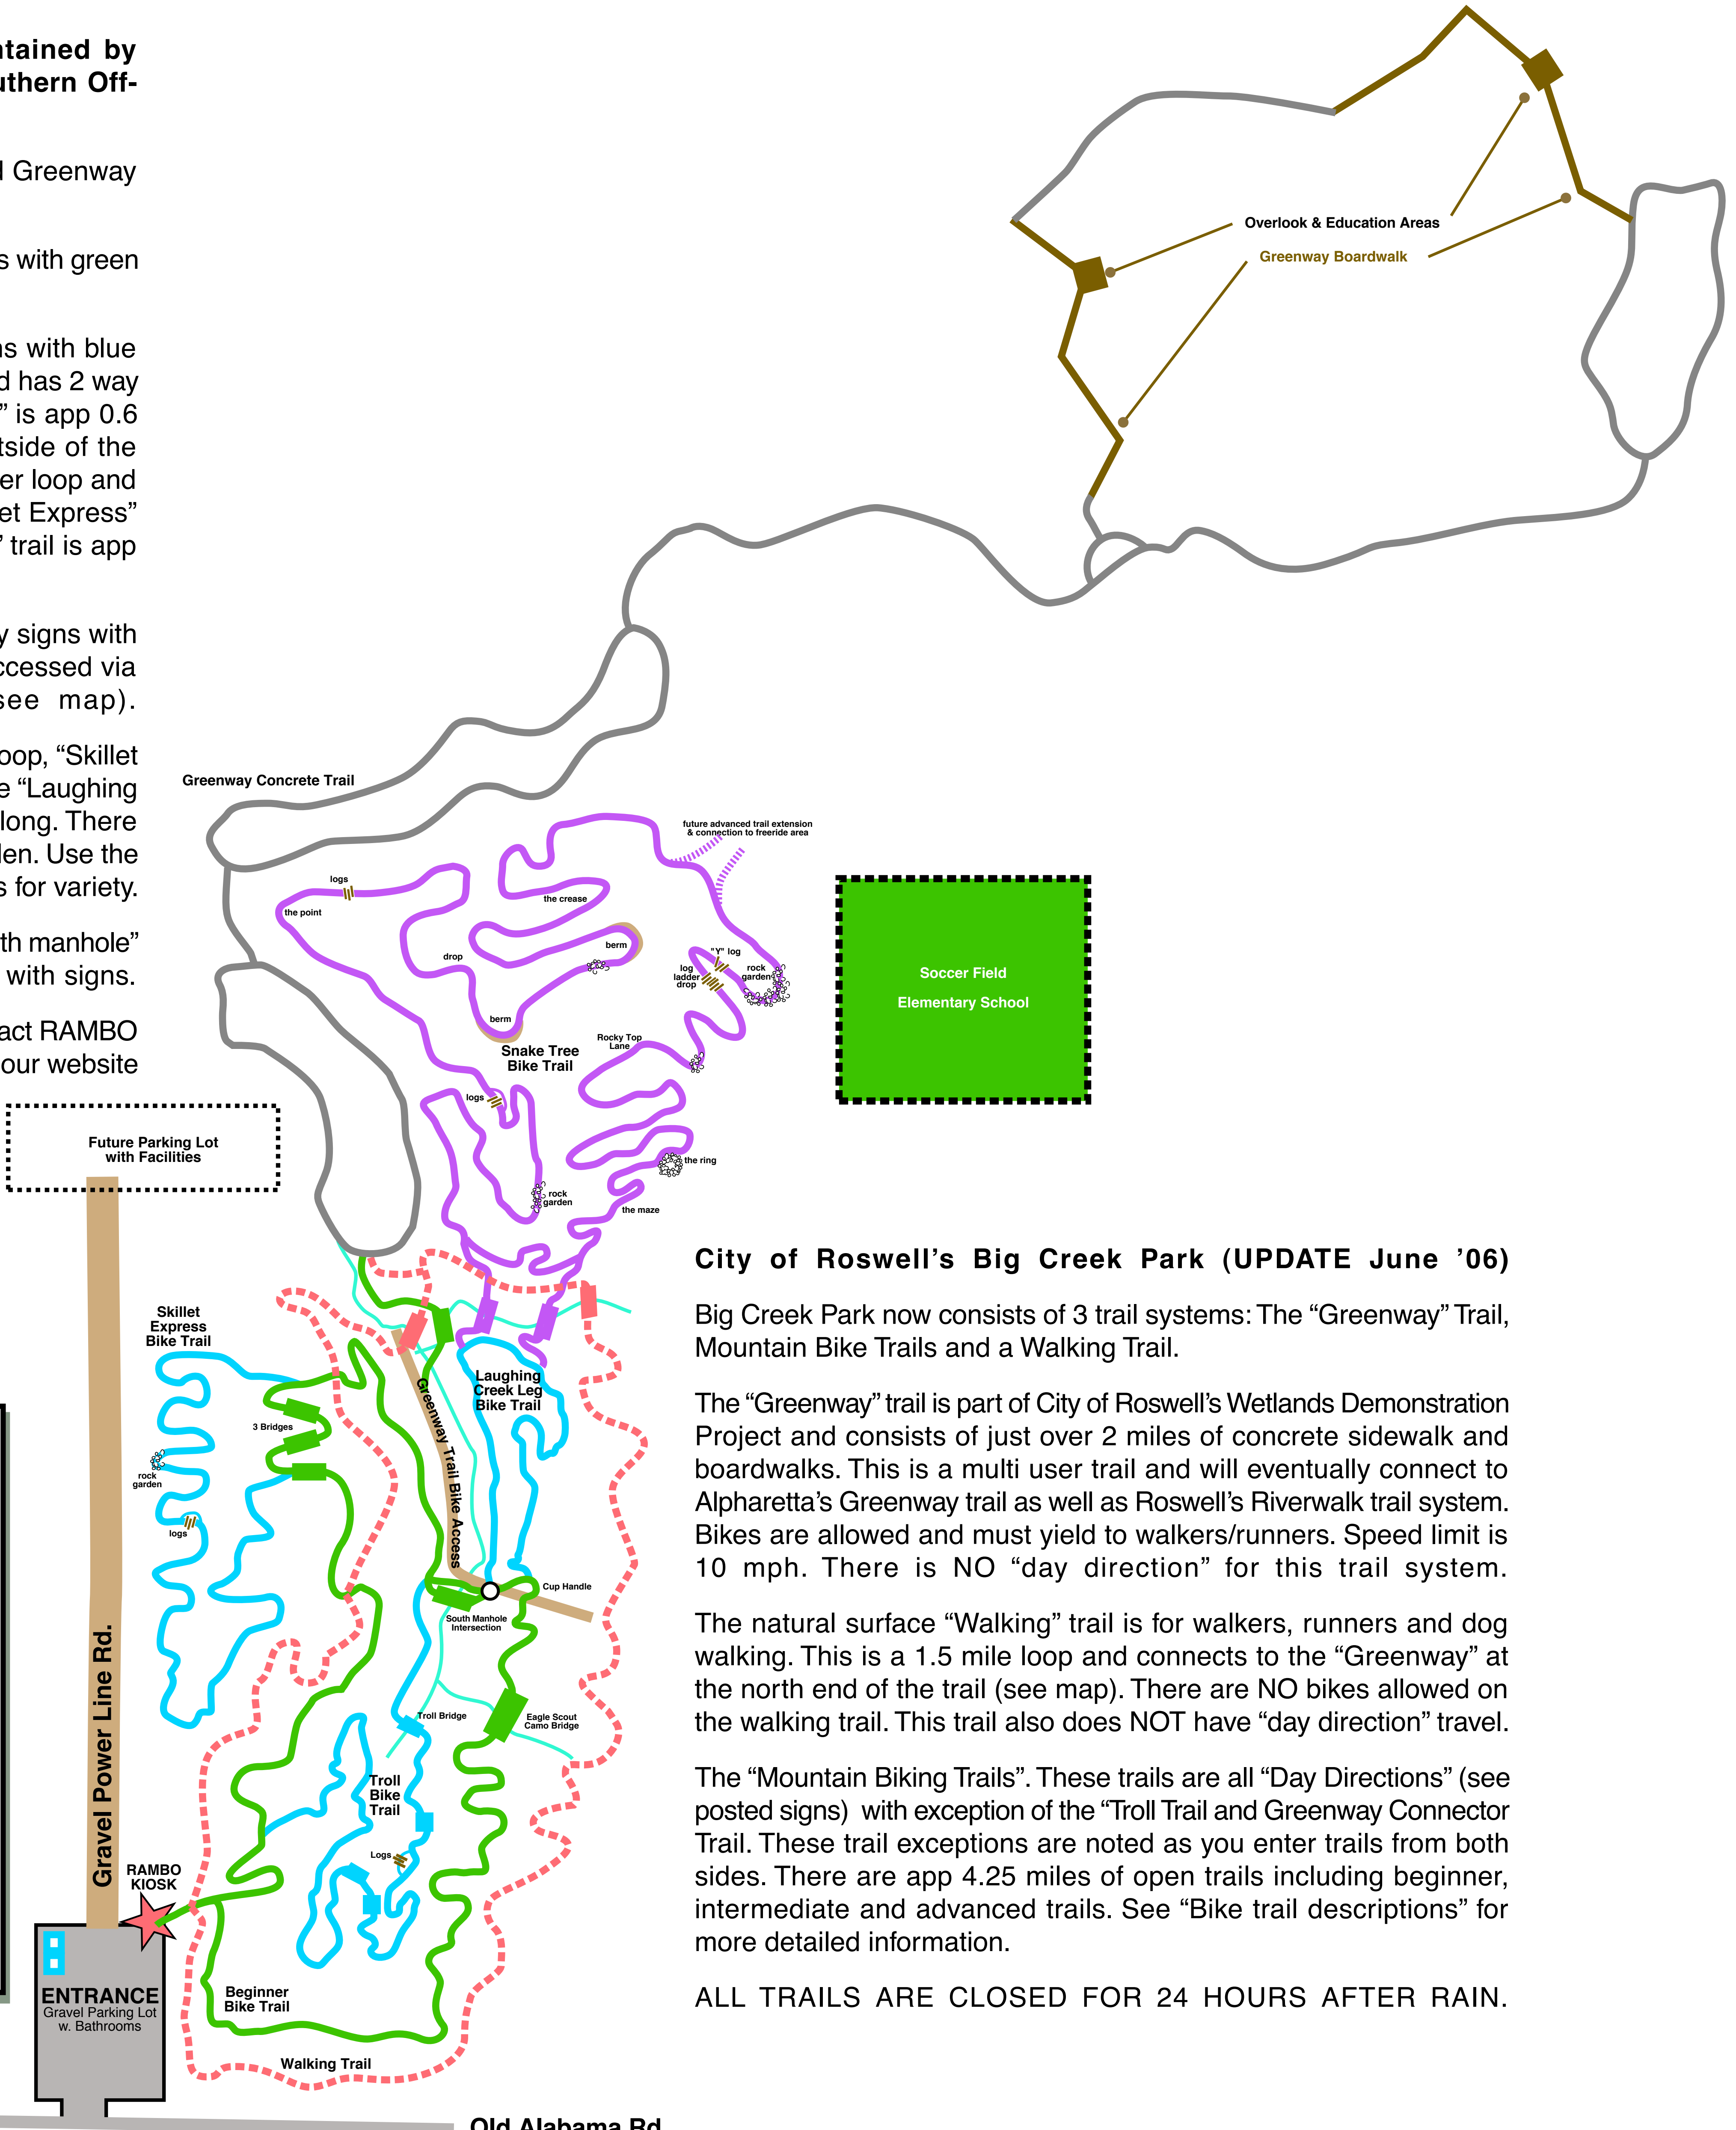

-There are 3 intermediate skill trails designated by signs with blue squares. The "Troll Trail" is inside of the beginner loop and has 2 way travel and is marked specifically for this. The "Troll Trail" is app 0.6 miles long. The other 2 intermediate trails both are outside of the beginner loop and have intersections leaving the beginner loop and returning to the beginner loop clearly marked. The "Skillet Express" trail is app 0.6 miles long and the "Laughing Creek Leg" trail is app .35miles long.

-There is one advanced "Snake Tree Trail" designated by signs with black diamond. It is a 1.35 mile loop and can only be accessed via the "Laughing Creek Leg" intermediate trail (see map).

The longest loop possible is a combination of beginner loop, "Skillet Express" and the advanced "Snake Tree Trail" loop via the "Laughing Creek Leg" trail. This "outer/outer loop is app 3.4 miles long. There are many possible combinations of loops that can be ridden. Use the "Troll Trail", in both directions, and the intermediate loops for variety.

The "Greenway" is accessed via the sewer road at the "south manhole" intersection (see map). This connection is now marked with signs.

To address specific questions about the trails, please contact RAMBO (Roswell Alpharetta Mountain Bike Organization through our website at [www.RAMBO-MTB.org](http://www.RAMBO-MTB.org).

**City of Roswell's Big Creek Park (UPDATE June '06)**

Big Creek Park now consists of 3 trail systems: The "Greenway" Trail, Mountain Bike Trails and a Walking Trail.

The "Greenway" trail is part of City of Roswell's Wetlands Demonstration Project and consists of just over 2 miles of concrete sidewalk and boardwalks. This is a multi user trail and will eventually connect to Alpharetta's Greenway trail as well as Roswell's Riverwalk trail system. Bikes are allowed and must yield to walkers/runners. Speed limit is 10 mph. There is NO "day direction" for this trail system.

The natural surface "Walking" trail is for walkers, runners and dog walking. This is a 1.5 mile loop and connects to the "Greenway" at the north end of the trail (see map). There are NO bikes allowed on the walking trail. This trail also does NOT have "day direction" travel.

The "Mountain Biking Trails". These trails are all "Day Directions" (see posted signs) with exception of the "Troll Trail and Greenway Connector Trail. These trail exceptions are noted as you enter trails from both sides. There are app 4.25 miles of open trails including beginner, intermediate and advanced trails. See "Bike trail descriptions" for more detailed information.

ALL TRAILS ARE CLOSED FOR 24 HOURS AFTER RAIN.
